CALIFORNIA STATE UNIVERSITY, NORTHRIDGE

MICHAEL D. EISNER COLLEGE OF EDUCATION

The Michael D. Eisner College of Education is nationally recognized for scholarly excellence and outstanding student achievement. The college is one of the largest public colleges of education in California and is celebrated for its preparation of teachers, counselors, administrators, early childhood educators, and deaf studies professionals.

Students can look forward to excellent educational opportunities that promote equity and social justice; cutting edge instruction in programs with state and national accreditation; and strong community and school partnerships in leadership, teaching and counseling under the guidance of exceptionally well-trained and caring faculty.

In addition to its six departments – Deaf Studies, Educational Leadership and Policy Studies, Educational Psychology and Counseling, Elementary Education, Secondary Education, and Special Education – the college offers 27 credential programs as well as an Ed.D. in educational leadership. All of its programs are accredited.

In order to meet the diverse needs of our local schools, the college's faculty works closely with partners from the Los Angeles Unified School District and other school districts in our region to collaborate on new programs and projects.

WHY THE CALIFORNIA STATE UNIVERSITY?

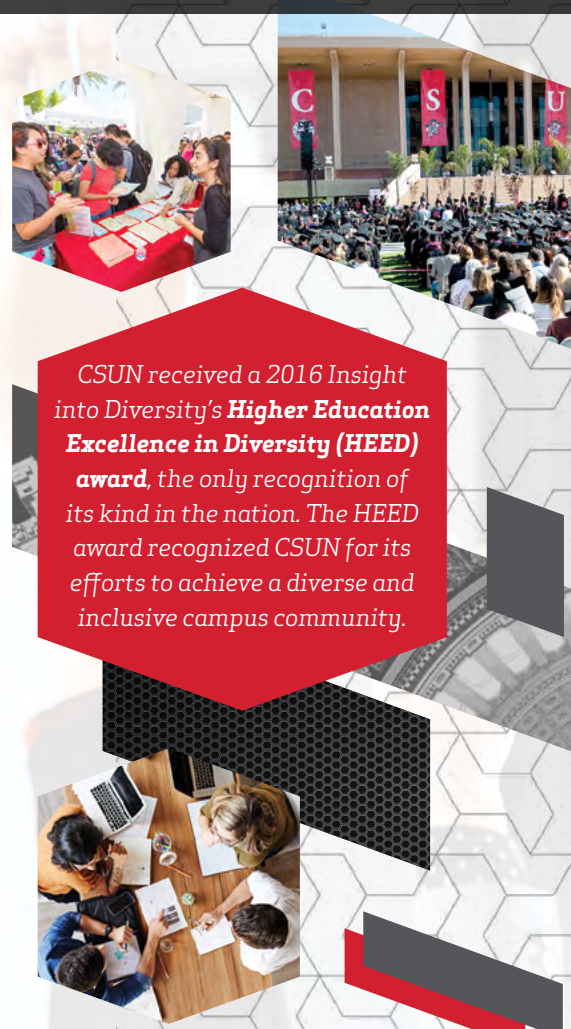

The California State University (CSU) is renowned for its focus on teacher education.

- › The CSU produces the largest number of teachers in California. It prepares more of California's P-12 teachers than all other institutions combined – and nearly eight percent of the nation's teachers.
- › Teacher training includes targeted areas such as Common Core State Standards and the Next Generation of Science Standards.
- › Partnerships with K-12 districts and local schools give students and administrators experience in the real world of schools.
- › The CSU produces more than 1,500 credentialed Science, Technology, Engineering and Mathematics (STEM) teachers every year.
- › Teachers are prepared for a culturally and linguistically diverse classroom.

CSUN received a 2016 Insight into Diversity's **Higher Education Excellence in Diversity (HEED) award**, the only recognition of its kind in the nation. The HEED award recognized CSUN for its efforts to achieve a diverse and inclusive campus community.

The **Deaf Studies Association** fosters support groups for Deaf Studies majors and sponsors a variety of special events for the community, including professional workshops, academic panels and social gatherings.

Deaf Studies is not a study of them; it is a study of us. We are richly diverse, but we are one in the pursuit of excellence in education and the equalization of opportunities for all.

The **DEAF405 ASL/Deaf Theatre** class examines theatre performed by deaf and hard-of-hearing performers and audiences, and culminates in a class-staged production.

DEAF STUDIES

CSUN is one of the few institutions in the nation with a comprehensive undergraduate program in the area of Deaf Studies.

Recognized as a leader in the field, the department helps students develop a proficiency in American Sign Language (ASL) and a nuanced understanding of the Deaf Community. Its courses delve into the language, culture, literature, and legal/social issues of deaf people.

CSUN provides Deaf Studies majors with a variety of other unique opportunities, including membership in student organizations as well as interaction with the more than 150 deaf and hard-of-hearing students on campus.

The university also possesses the most extensive collection of resource materials related to Deaf Studies in the western United States. Plus, CSUN hosts a variety of campus and community events, such as Social Justice workshops and ASL/Deaf Theatre productions.

Deaf Studies professor **Lissa D. Stapleton** received a \$20,000 grant from the Council on International Educational Exchange (CIEE) in 2018 to take deaf students of color and Deaf Studies majors to Cape Town, South Africa.

In 2018, **Ana Maritza Rivera** became the first Deaf Studies major to participate in the CSUN in D.C. Internship Program and the Congressional Hispanic Caucus Institute (CHCI) Internship Program.

EDUCATIONAL LEADERSHIP AND POLICY STUDIES

Nicole Wilson, M.A. Educational Administration (CSUN), received the **2017 Emerging Leader for Education Award** by the California State University Chancellor for her passion for higher education and contributions to student success.

Gregory Mena, Ed.D, who is an instructional designer in CSUN's Faculty Technology Center, received a **2016 CSUN Award of Merit** for exceptional work performance, integrity and service to the university community.

The Department of Educational Leadership and Policy Studies develops school and college administrators prepared to implement positive change in teaching, learning and student achievement. Its courses emphasize strategies for managing conflict, building consensus, communicating effectively and developing leadership skills.

In their classes, students develop a leadership style that's unique to them and based on their particular strengths. At the same time, **students study policy and hone their instructional abilities**, giving them the breadth of experience necessary to lead in a variety of contexts.

CSUN's doctoral program in Educational Leadership (Ed.D.) is also housed in the department. The Ed.D. prepares students to engage in educational leadership at the highest levels – crafting and implementing policy, heading national organizations, and courting high-profile stakeholders to improve student achievement.

"Among school-related factors, **leadership is found to have one of the greatest impacts on student learning**. At least 37 states require candidates to hold a master's degree and have at least three years' teaching or related experience to qualify for an initial school leader certification."

–Education Commission
of the States

EDUCATIONAL PSYCHOLOGY AND COUNSELING

The Department of Educational Psychology and Counseling prepares students to work with individuals, families and groups in educational, organizational and community settings.

The department approaches theory, research and practice from ecological and developmental perspectives, and focuses particularly on counseling, early childhood education, educational psychology and psychological foundations of education.

With the completion of the degree program and state requirements, students can receive a credential in Pupil Personnel Services (PPS) in either school counseling or school psychology. Upon graduation, students will be prepared to pursue licensure as a marriage and family therapist (LMFT), a professional clinical counselor (LPCC), or an educational psychologist (LEP).

Professor Diane Gehart, Department of Educational Psychology and Counseling, received the 2017-2018 CSUN Distinguished Teaching, Counseling or Librarianship Award for her contributions to the Marriage and Family Therapy program.

In 2018, **Dr. Shari Tarver-Behring**, interim dean of the Michael D. Eisner College of Education, and **Kim Goldberg-Roth**, faculty in the Educational Psychology and Counseling Department, received \$317,432 from the California Office of Emergency Services in support of a project, "CalOES Child Advocacy Centers (KC)."

The Wall Street Journal/
Times Higher Education
ranked CSUN second
nationally in its **2018 list
of Campuses with the
Most Diversity.**

ELEMENTARY EDUCATION

In 2017, **Dr. David Kretschmer**, chair of the Elementary Education Department, and **Dr. Monica Garcia**, faculty in the Secondary Education Department, spearheaded the Future Minority Male Teachers of California project, an initiative to recruit men of color into the profession of elementary education.

Elementary Education **Professor Susan Belgrad** works with the California Department of Education to boost the interest of elementary students in science, technology, engineering, art and math.

The Elementary Education Department prepares students to teach elementary education in diverse settings and to a wide range of individuals, including those with disabilities. The department emphasizes educational policy, practice and research, as well as critical thinking and evidence-based pedagogy.

Its courses focus on learning as a human right, and nurture creative, responsive and reflective practitioners who challenge their students to become global citizens in an ever-changing world. Students also learn educational psychology, improving their ability to empathize with and respond to the needs of diverse students.

The department offers preliminary and advanced teaching credentials and a Master of Arts in Education with an option in Elementary Education.

In collaboration with CSUN, the FEDCO Charitable Foundation is sponsoring a three-year program in the Compton Unified School District to help retain diverse teachers.

A \$145,000 grant from the Los Angeles Scholars Investment Fund (LASIF) will provide 40 scholarships to undergraduate candidates from underrepresented groups who enter the teaching profession at CSUN, CSU Dominguez Hills and CSU Los Angeles.

The **Single Subject University Intern Program** is offered in collaboration with school districts and leads to a Single Subject Preliminary Credential, for those with a bachelor's degree and who work full time teaching in a public middle school or high school.

The **Four-Year and Junior-Year Integrated Programs** integrate undergraduate subject-matter knowledge with teacher-education content. Students in these programs earn their bachelor's degree in English or mathematics and a preliminary California Single Subject Teaching Credential in English or Mathematics.

SECONDARY EDUCATION

The Department of Secondary Education offers credential programs for most subjects in the secondary school curriculum. Its courses combine theory with hands-on experience in a variety of multicultural, multilingual, public school classrooms.

In addition, faculty bring a wealth of real-world teaching experience to the classroom. This provides students with a practical framework on which to base their own teaching styles. Credential candidates gain access to the department's state-of-the-art computer labs as well as a wide range of hardcopy and electronic resources for teaching.

The Department of Secondary Education offers preliminary single subject teaching credentials, added authorizations and Master of Arts degree programs.

Rebecca Mieliwocki, MA in Education: Curriculum & Instruction, won the **National Teacher of the Year Award** from the Council of Chief State School Officers in 2012. She accepted the award at the White House, where President Obama called her "the definition of above and beyond."

The **Accelerated Collaborative Teacher (ACT) Preparation Program** is a two-semester, full-time program that focuses on addressing the diverse needs of urban school learners. ACT is designed for post-baccalaureate credential candidates interested in pursuing a multiple subject, single subject or education specialist credential through an acceleration option.

SPECIAL EDUCATION

The Department of Special Education offers credential and master's degree programs for professionals who work with infants, toddlers, children and youth with special needs and their families. The department prepares special educators to understand the diverse characteristics and backgrounds of students with special needs, to adapt curriculum and instruction, and to make sound educational judgments.

*Special Education professor **Sally Spencer** won the 2018 CSU Faculty Innovation and Leadership Award for working on a learning program that is shaping the way students practice skills in the university classroom by combining artificial intelligence and virtual avatars.*

*CSUN honored Special Education professor **Dr. Ivor Weiner** with the 2018 Wang Family Excellence Award. Dr. Weiner was recognized for his efforts to help special needs families and his involvement with the Family Focus Resource Center.*

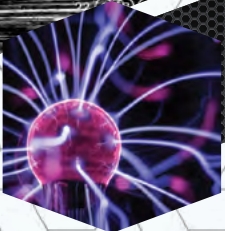

The master's degree program builds upon the competencies developed in the special education credential programs, preparing students for **positions of leadership, advocacy and scholarship** in schools, the community and within the overall profession of special education.

Education Specialist credential programs provide specialized course work and field experiences for individuals who are interested in serving students with special needs. The department offers a preliminary education specialist credential and an induction education specialist credential in deaf and hard of hearing, early childhood special education, mild/moderate disabilities and moderate/severe disabilities.

The **CHIME Institute**, a national leader in inclusive education, has partnered with CSUN for the past nineteen years in a variety of ways to promote best practices in special education and teacher preparation. CHIME's programs also serve as clinical sites for experiences in observation, fieldwork and student teaching.

In 2016-17, California employed 274,246 teachers who taught more than 6.1 million students. Still, California schools face a shortage in particular subject areas, including special education, raising the need for highly qualified teachers.

CREDENTIAL OFFICE

The Credential Office supports the mission of the Michael D. Eisner College of Education to serve the diverse educational needs of students and the community as we assist in the preparation of teachers, counselors, administrators and other education professionals. The college offers **27 accredited credential programs**, each designed to meet the career development needs of education professionals.

PRELIMINARY TEACHING CREDENTIAL PROGRAMS

- › Multiple Subject (Elementary Education)
- › Single Subject (Secondary Education)
 - › Art
 - › English
 - › Home Economics
 - › Foundational Level Mathematics
 - › Mathematics
 - › Music
 - › Physical Education
 - › Science: Biology, Chemistry, Foundational Level Science, Geoscience, Health Science, Physics
 - › Social Science
 - › World Language: American Sign Language, French, German, Korean, Mandarin, Spanish
- › Education Specialist (Special Education)
 - › Deaf and Hard of Hearing
 - › Early Childhood
 - › Mild/Moderate
 - › Moderate/Severe

- › Dual Single Subject/Education Specialist (Mild/Moderate)

TEACHER INDUCTION PROGRAM

- › Education Specialist

SERVICES CREDENTIAL PROGRAM

- › Preliminary Administrative Services
- › Clear Pupil Personnel Services (School Counseling, School Psychology)
- › Preliminary Speech-Language Pathology Services
- › Clear Reading and Literacy Leadership Specialist Credential

ADDED AUTHORIZATION PROGRAMS

- › Bilingual Added Authorization (Armenian, Korean, Spanish)
- › CLAD/CTEL Added Authorization
- › Specialist Education Added Authorization (Autism Spectrum Disorder, Resource Specialist)

Centers and Institutes

The Michael D. Eisner College of Education offers a number of premier resources, centers and institutes to both its students as well as the greater Los Angeles community. These amenities are the culmination of decades of hard work and commitment by the college's prestigious faculty, stakeholders and administrators. Below is a list of these world-class resources:

UNIVERSITY CHARTERED CENTERS

- › Center for Educational Intervention and Therapy
- › Center for Partnership for Educational Reform
- › Center for Research and Innovation in Elementary Education
- › Center for Research, Development and Services in Educational Psychology and Counseling
 - › Mitchell Family Counseling Clinic
- › Institute for the Advancement of Educational Studies and Programs
 - › Berke Assessment Library and Clinic
 - › Center for Teaching and Learning
 - › Deaf Education and Families Project
 - › Family Focus Resource Center
 - › L.A. Times Literacy Center
 - › Mitchell Family Counseling Clinic
 - › Special Education Literacy Clinic
 - › Teaching, Learning and Counseling Consortium
- › Secondary Education Center for Professional Development and Educational Outreach
- › Strength United

OTHER SPECIAL PROJECTS AND ACTIVITIES

- › Cal State Northridge Writing Project
- › CSUN Explorers
- › Experience Confidence and Enjoyment of Learning (ExCEL)
- › Project I-PREP
- › Preparing Asian Bilingual Teachers Project
- › The Teaching, Learning and Counseling Consortium

The Teaching, Learning and Counseling Consortium is composed of clinics and centers committed to innovative clinical preparation and integrated community based services; the center offers low-cost assessment, tutoring, counseling, educational therapy and information and referral services to the local community.

CSUN received \$7 million from The Eisner Foundation to establish the Center for Teaching and Learning, which prepares teachers, parents and clinicians to support the educational and emotional needs of all types of learners.

The Institute of International Education ranked **CSUN fifth nationally** in its Open Doors Report list of **master's colleges and universities hosting international students (2018)**.

The School Partnership Network has the college partnering with local schools and agencies for program development, teaching and mentoring.

Student Involvement

With more than 300 student clubs and organizations, as well as popular seasonal activities, such as The Big Show and Matador Nights, it's easy to see how CSUN students remain so busy. In addition to university clubs, students can also join those specific to the Michael D. Eisner College of Education, such as:

- › California Career Development Association – CSUN Student Chapter
- › Deaf Studies Association
- › EOP Student Association
- › Early Childhood Education Masters Association

The joint relationship between Northridge Academy High School and CSUN provides an opportunity for the high school and university to develop curriculum and expand learning.

Community Service and Outreach Through the College

The Strength United Center is the largest chartered center on campus. Dedicated to the elimination of sexual and interpersonal violence, the center has been recognized by the U.S. Department of Justice as a best practice in the identification, intervention and prevention of Domestic Violence.

The Family Focus Resource Center at CSUN entered into a two-year contract in 2017 with the North Los Angeles County Regional Center, which provides support services for individuals and the families of people with developmental disabilities.

The college's Center for Teaching and Learning sponsors an Education on the Edge lecture series, featuring well-known education experts. Past presenters include world-renowned author and autism spokesperson Temple Grandin; Megan Marcus, CEO and Founder of Fuel Ed; and Thomas C. Murray, director of innovation for Future Ready Schools® and 2017 Education Thought Leader of the Year.

In 2017, CSUN and Project GRAD partnered with San Fernando High School – one of the largest high schools in the Los Angeles Unified School District – to provide teacher training, college training and parent workshops.

LA UP CLOSE

There's a reason the world flocks to Los Angeles — and it's not just the year-round sunshine. With some of the nation's best schools, as well as its finest institutions, the city is an excellent place to teach and to live. A booming tech sector, a legendary entertainment industry and a world-class education system — it's all right here.

Of the nearly 700 tech firms in Los Angeles, 86 percent are located in Santa Monica's "**Silicon Beach.**" This innovation district of tech companies, start-ups and venture capital firms features the headquarters of **Snapchat, Hulu,** and **TrueCar,** as well as the offices of other industry giants, such as **Google, YouTube,** and **Facebook.**

In the Hollywood Hills, removed from the busy city below, is the iconic **Griffith Observatory.** Inside, stars, planets and other celestial bodies project upon the planetarium's aluminum dome, and outside, from the terrace, is an exquisite view of Los Angeles.

In the San Fernando Valley, just up the block from CSUN, is **Granada Hills Charter High School.** A national leader in charter education, Granada is a three-time winner of the national Academic Decathlon. The school is only one example of the city's superb public education system.

Just few miles from the Los Angeles International Airport (LAX), Elon Musk and his fleet of Mars-minded engineers are busy at work in **SpaceX's** Hawthorne headquarters.

At the city's southern tip, the **Natural History Museum** showcases its more than 35 million specimens and artifacts. From prehistoric man to mummies and dinosaurs, its impressive collection attracts a global audience.

On downtown's Grand Avenue, in its dazzling \$140 million building, the **Broad Museum** houses the world's largest collection of postwar and contemporary art. More than 2,000 pieces, collected from artists worldwide, fill the building's three-story gallery space.

And, of course, at CSUN's stunning performing arts center, **The Soraya,** visitors can attend world-class productions of live theatre, music and dance. The Los Angeles Times cited the \$125 million, 1,700-seat theatre as "a growing hub for live music, dance, drama and other cultural events."

These institutions, among many others, are within close reach of CSUN's Transit Center.

Career Options for Degrees in Education

Graduates of the Michael D. Eisner College of Education can apply their learning in **any educational setting**. They serve in the public and private sector, with leadership and education roles in schools, health settings and social service organizations. The college partners with community schools, agencies and working professionals to provide students with the **real-world experience** needed to succeed in their careers.

Educators serve not only as instructors from early childhood through college classrooms, but as mentors, advisors and innovators in community and government agencies; social services; and health, business and organization settings; as counselors; as curriculum creators; and as administrators in schools and other instructional settings.

Graduates of the Michael D. Eisner College of Education have an **array of possibilities**. California has:

- › More than 1,000 school districts
- › More than 10,000 schools
- › More than 6 million students
- › Nearly 314,000 teachers
- › A multicultural student body

Career Options

- › Bilingual teacher
- › Community college administrator
- › Crisis intervention counselor
- › Educational therapist
- › Elementary school teacher
- › Family counselor
- › High school counselor
- › High school teacher
- › Instructional designer
- › Marriage and family therapy counselor
- › Middle school teacher
- › Pre K-12 administrator
- › Principal
- › Program evaluator
- › Reading and language arts specialist
- › Resource specialist
- › School administrator
- › School counselor
- › School psychologist
- › Sign language instructor
- › Sign language interpreter
- › Special education specialist
- › Special education teacher
- › Speech pathologist
- › Training/workshop developer

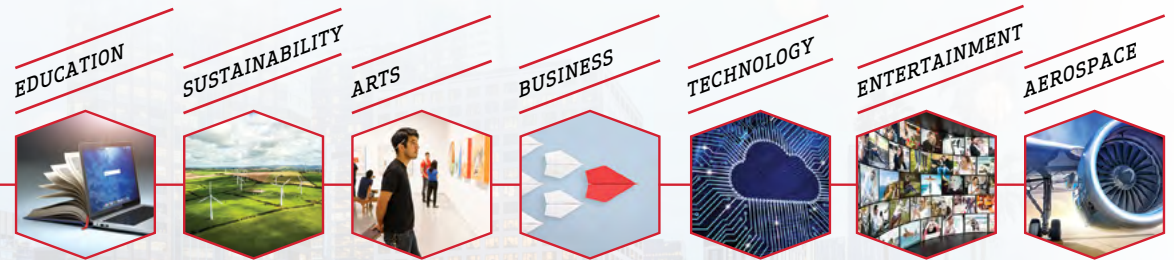

M.A. in Instructional Design
prepares participants for a career designing, implementing and assessing educational programs, such as online courses, professional development seminars and how-to modules for products and services.

A DEGREE IN A GLOBAL CAPITAL

With the **fifth-largest economy in the world**, California more than lives up to its 'Golden State' promise. And L.A. plays no small part in that. Behind the city's glistening, rosy exterior are some of the **planet's highest per capita earners** – both personally and commercially.

California is a leader in

The Greater Los Angeles metropolitan area ranks second in the 10 largest metro areas by GDP in the United States, with over \$1 trillion in GDP in 2017, according to federal government figures. Los Angeles County alone has more than 244,000 businesses, and more minority and women-owned businesses than anywhere else in the nation.

And even better, **being a CSUN student means being a part of it – all of it.** From the big name places, like Hollywood and Santa Monica, to the big name people, like Elon Musk, it's all just part of the territory. There is no place better to get a degree than in an environment built on big city excitement and possibility.

Alumni

When students graduate from CSUN, they join an extensive network of more than 330,000 alumni – in California, across the nation and around the globe – who thrive on helping Matadors find personal and professional success.

Teachers of the Year

After graduating, many alumni have gone on to win Teacher of the Year designations. Bestowed by governments and agencies, the recognition is one of the field's highest honors. Below are a few of the college's recipients:

CSUN grad Erin Oxhorn-Gilpin (B.A. Liberal Studies/Multiple Subject Teaching Credential) was recognized as a 2018 California Teacher of the Year by the State Superintendent of Public Instruction. She was the only elementary school teacher in California so honored.

Rebecca Mieliwocki (Teaching Credential) was named the 2012 National Teacher of the Year by the Council of Chief State School Officers. Mieliwocki, a middle school teacher, also was named a 2012 California Teacher of the Year.

The Los Angeles Unified School District honored 23 exceptional Rookie Teachers of the Year in 2015, and seven of the honorees were CSUN grads. The seven also earned credentials from the Michael D. Eisner College of Education teacher-credential program.

"Having five alumni from the Michael D. Eisner College of Education honored at the LAUSD Teachers of the Year luncheon illustrates the CSUN legacy of excellence. This is also a prime example of how CSUN continues to have one of the best teacher-preparation programs in California."

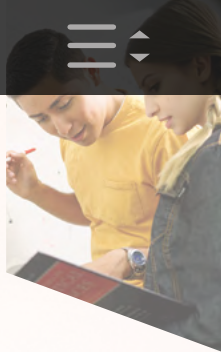

– Dr. Shari Tarver-Behring, interim dean, Michael D. Eisner College of Education

In 2017, the Los Angeles Unified School District honored 22 teachers for their designation as Teachers of the Year, including five CSUN grads.

Each year the Los Angeles Unified School District consistently names CSUN graduates among their Teachers of the Year.

State officials named CSUN grad Isela Lieber (M.A. Educational Administration) as one of five California Teachers of the Year in 2016. An immigrant from Ecuador, Lieber is a high school teacher of English Language Development.

OUTSTANDING VALUE

By choosing the Michael D. Eisner College of Education, students receive an exceptional education from a highly respected leading California public university.

With more than 85 post-baccalaureate programs, including doctoral degrees and professional certificates, CSUN is now the fourth largest university in California.

According to the Social Mobility Index, CSUN students go on to graduate at higher rates and earn more as alumni than those from peer institutions.

Through CSUN's extensive working relationships with government agencies and nonprofits, as well as start-ups, media organizations and tech companies, students can gain unique access to internships, job opportunities and other professional work.

The costs to attend CSUN are also moderate in comparison with similar programs from Southern California private universities or the University of California.

Students Outside California

Attending CSUN lets out-of-state and international students live the L.A. lifestyle as they earn the degree they need. And the best part is, by choosing CSUN, they can do it all from the comfort, safety and prestige of one of the nation's largest and most respected public universities.

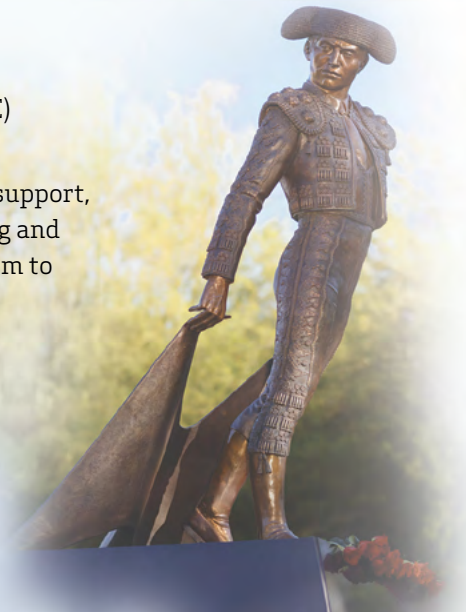

Accompanying the vast local culture is the institutional prowess of CSUN. Being a university of such size, the many resources at our disposal allow us to design programs and services that tap deeply into the student experience. That's as true for those from another state as it is for those from another country.

CSUN recently ranked in the top five of peer institutions for the **highest number of international students in the United States**, with a total enrollment of more than 2,800 in the 2017-2018 academic year. Along with students, the university hosts visiting scholars from institutions in China, India, Korea, Great Britain, Japan, Mexico and more.

CSUN offers a distinct set of services, designed specifically to meet the needs of the international community. These programs include

- International Pathway Programs (IPP)
- Semester at CSUN (SAC)
- English Language and Cultural Experience (ELCE)
- University Transition Program (UTP)

In addition to receiving academic and administrative support, international students also gain access to free tutoring and can participate in cultural expeditions that enable them to experience life in Los Angeles more fully.
